## Professional Summary

- Full Stack Developer with 3+ years of experience using Python, JavaScript, React.js, Angular, HTML5, CSS, PHP and jQuery.
- Deployed microservices-based application on Kubernetes with RESTful APIs and load balancing, using Docker for scalability and caching to improve performance on AWS.
- AWS Certified Cloud Practitioner, building dynamic UIs and secure RESTful APIs with OAuth to improve workflows and customer retention 30%, contributing to substantial business growth.
- Strong in object-oriented programming, delivering high-quality modular code quickly, applying advanced analytics and UI/UX principles for superior user-focused solutions.

## Work Experience

### Freelance Web Developer - Webflex

Jan 2024 - Present

- Successfully designed and developed over 5 web products for various clients, leveraging innovative microservices, web services under tight deadlines ensuring timely delivery and high-quality results.
- Implemented RESTful APIs using JavaScript, HTML5, CSS, jQuery, and frameworks such as Angular and React.js.
- Led the redesign of existing client websites using agile methodology, A/B testing and effective redesign strategies to achieve a 20% increase in user traffic.
- Developed and maintained a scalable, modular codebase using object-oriented principles, resulting in streamlined development processes and efficient team workflows.

### Quality Auditor - Allianz Technology

Oct 2022 - Dec 2022

- Ensure work processed by Credit Management team adheres to recommended quality standards.
- Record errors if any using tools such as Verint and find root cause of the same with investigation to prevent repetition.

### Senior Credit Analyst - Allianz Technology

Dec 2018 - Sep 2022

- Reconciliation of intermediary accounts to ensure that the collection of debts occurs at the desired service level.
- Perform in-depth analysis of financial statements, credit reports, and other relevant data to assess creditworthiness.
- Utilize statistical tools and techniques to interpret complex financial data, identifying trends and potential risks.
- Collaborate with cross-functional teams to understand business goals and translate them into data-driven credit strategies.
- Ensure adherence to regulatory requirements, industry standards, and company policies related to credit risk management.

Education

<b>St Clair College</b>	<b>Jan 2023 - April 2024</b>
Web Development and Internet Applications	
<ul style="list-style-type: none"><li>• <i>Create websites using modern languages (C#, HTML, CSS, JavaScript, PHP) and technologies (Bootstrap, ASP.NET, Laravel, Angular).</i></li><li>• <i>Develop high quality responsive web sites. Gain valuable experience designing User Experiences (UX)</i></li><li>• <i>Learn to build agile projects and properly designed databases.</i></li></ul>	
<b>Anna University</b>	<b>Aug 2014 - April 2018</b>
Bachelors in Electronics and Communication Engineering	

---

Tech Skills

- Programming Languages: Python, JavaScript, HTML5, CSS, PHP
- Web Technologies: jQuery, Redux, React.js, Angular, Laravel, Node.js, RESTful APIs
- Back-end frameworks: Spring Boot, Flask
- Web Design: Figma, Adobe Illustrator, Adobe Photoshop
- Version Control: Git, GitHub
- Databases: MySQL, MongoDB, Oracle, PostgreSQL
- Operating Systems: Windows, Linux, macOS
- Tools: Git, Jenkins, JIRA, Eclipse, Visual Studio Code, Visual Studio Pycharm, IntelliJ IDEA, Docker
- Cloud Platforms: AWS, Azure, GCP

Soft Skills

- Ability to Accept Feedback: Actively utilize user feedback for performance and user experience optimization.
  - Client Engagement: Build rapport through clear communication, understanding needs, and surpassing expectations.
  - Collaborative Problem-Solving: Harness diverse perspectives for innovative solutions.
  - Adaptability: Quickly adjust to changing environments, shifting priorities, and evolving strategies.
  - Problem Solving: Analytical Thinking, Root Cause Analysis
- 

Professional Certifications

<b>Introduction to Data Science</b> Course Certification - Cisco	<b>2024</b>
<b>Angular Essential Training</b> - LinkedIn Learning	<b>2024</b>
<b>Course Certifications in C/C++/Core Java/Advanced Java</b>	<b>2012-2018</b>

---

Projects Showcase

- **Bookstore MVC WebApp** using ASP.NET with routing, dependency-injection etc.
- Angular based **Smartphone store** web app.
- **Interior Designer Client Website Design** using Figma [ [Prototype Link](#) ]
- **Cookbook Website** using Laravel [ <https://sthomassaj.scweb.ca/cookitup> ]
- Client Website – **AdvAshok** [ <https://sthomassaj.scweb.ca/AdvAshok> ]
